5. Change to Cognate Requirements
Supervisory from the last sentence of the second paragraph

6. Addition of Dissertation Research Requirement
15 credits minimum;
HLP 7980 Research Doctoral Dissertation 1-15 credits

Justification: To meet the needs of current students, future recruits and the profession, the faculty decided that the best option was to offer an opportunity for students to create an interdisciplinary concentration based on a number of cognate courses within a Recreation, Parks and Tourism concentration vs. separate concentrations. The Therapeutic Recreation concentration has not had faculty or students for several years.

E. Cognate: (15 credits minimum)

With the approval of the supervisory committee, the student may choose one or more cognate fields. Academic work may be completed in any department, other than the major department, approved for masters or doctoral degree programs as listed in the Graduate School Catalog. The collective grade for courses included in a cognate must be “B” or higher.

If one cognate area is chosen, the representative of the respective department on the supervisory committee shall suggest from 15 to 24 credits, at the 5000 level or higher, as preparation for qualifying examination. A part of this background may have been acquired in the master’s program. If two cognate disciplines are chosen, each must include at least 8 credits. Competence in the cognate field must be demonstrated through written and oral examinations conducted by the representative of the external department on the ~~supervisory~~ committee.

Coursework in the cognate field at the doctoral level need not be restricted to the courses of one department, provided that the minor has a clearly stated objective and that the Graduate School approves the combination of courses representing the minor. This procedure is not required for a departmental minor.

F. Dissertation Research: (15 credits minimum)

HLP 7980 Research for Doctoral Dissertation.....1-15

Overall Requirement for a Doctoral degree:

Core Discipline.....	15
Concentration Area.....	15-18
Research Methods.....	30-18
Statistical Data	
Analysis.....	15-9
Cognate Discipline.....	15
<u>Research for Doctoral Dissertation.....</u>	<u>15</u>

A minimum of 90 credits beyond the bachelor’s degree is required for the Ph.D. degree.

All courses taken toward the degree must be approved by the Student’s Graduate Committee. It should not be assumed that any of the above courses “automatically” count toward the degree. Doctoral degree plans are customized for each student and every course listed may not be appropriate for all students.
