

Q1.

APPLIED PHYSIOLOGY AND KINESIOLOGY (APK) INTERNSHIP SITE APPROVAL FORM

Q2.

The **Department of Applied Physiology and Kinesiology** (APK) at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete 12-credits of internship experience once becoming eligible. Undergraduate students must earn a minimum of 520 clock hours in the process of completing the 12-credits of the internship course. However, undergraduate students may choose to complete all 12-credits in a single semester, or split the credits over two semesters. Students choosing to split the internship credit into two, 6-credit, semesters are required to complete a minimum of 260 clock hours at the internship site each semester. **Graduate** students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergraduate and graduate programs is below:

APK Undergraduate Program: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agency, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of a health care team that administers, assesses, and develops programs for clinical, general public, or high-performance populations.

Q34.

Will the person receiving internship applications from students be the same person supervising the student and completing the student evaluations during the internship?

Q11. Name of Individual Who Will Supervise Stud Evaluations	ents Directly During Internship and Complete Student
This question was not displayed to the respondent.	
Q12. Email Address of Individual Who Will Superv Student Evaluations	vise Students Directly During Internship and Complete
This question was not displayed to the respondent.	
Q13. Phone number of Individual Who Will Super Student Evaluations	vise Students Directly During Internship and Complete
This question was not displayed to the respondent.	
Q14. What Semester(s) Is Your Organization Avai	lable To Accept Interns? (select all that apply)
Fall (August - December)	
Spring (January - April)	
✓ Summer (May - August)	
This means that site supervisors of undergraduate	pervisor hold one degree higher than the student intern. e interns must hold at least a bachelor's degree and those of gree. Based on this policy, for which category of students is Check all that apply
✓ Undergraduate Students	☐ Graduate Students
Q16. How many interns is your organization willing	g and able to support per semester?
2	
internship in a single semester or two, 6-credit (26	to complete a single 12-credit (520 hour minimum) 60 hour minimum) internships over two semesters. Are you experience (~20 hours per week), full-time (~40 hours per spending on the student's internship plans?
O Part-Time Internship (~20 hours per week)	
○ Full-Time Internship (~40 hours per week)	

YesNo

Q17. Describe the normal working hours anticipated for an intern at your organization. Please indicate likelihood and circumstances surrounding any evening or weekend time commitments.
5, 8 hour, days a week. Dependent upon student needs, students may obtain clinical experience on front-line EMS units, to include the Community Paramedicine Program and other community outreach events as planned. Occasionally there will be evening and weekend events.
Q18. Does your organization offer non-paid or paid internships?
Non-paidPaid (amount)
Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)
We will provide documented clinical experience, the opportunity to plan and execute community health projects, letters of reference, and department/community awards.
Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)
N/A
Q23. List required skills or previous experience necessary for interning with your organization
Preferred experience in public speaking and interacting closely with the public / partner agencies. A basic understanding of human health systems is all preferred.
Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid.

Either Part-Time or Full-Time depending on the student's internship plan

Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)

Basic CPR, HIPPA training (provided in-house), background check	
Q25. Provide a bulleted list of duties/responsibilities you	ur organization expects to be fulfilled by interns:
and Documentation: Enter patient information and visit details into elect Community Outreach and Education: Help in organizing and participat topics. Follow-Up Care Coordination: Assist in scheduling follow-up appeared checks on patients post-discharge. Support in Resource Connection: I community health services. Program Evaluation: Collect and analyzed reporting and improvement efforts. Inventory Management: Help track	ealth assessments, gathering vital signs, and recording medical history. Data Entry ctronic health records and assist with maintaining accurate documentation. ting in outreach events to educate the community on health, safety, and wellness expointments, coordinating with healthcare providers, and conducting wellness. Help patients access local resources like food programs, social services, and other data on program outcomes, patient feedback, and community impact, assisting in medical supplies, equipment, and ensure vehicles are stocked for community ome visits to gain practical experience and learn patient interaction and
Q26. Please describe a typical day for the intern:	
0800 - arrive at assigned location or station and assist with morning doneeds 1000 - patient visits, check-in with community partners 1200 - locally unmet needs, responsibilities, planning	uties. 0900 - review patient care plans, review calls from previous day, identify daily unch 1300 - documentation, charting, completing PCRs 1400 onwards - any other
Q28. All Interns (undergraduate and graduate) MUST b Learning Outcomes (SLO's), though evaluation of all 9	
the duties/responsibilities provided to interns at your organical	
Integrate principles and methods of math, social sciences, and/or ✓ arts and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments.	Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.	Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.
Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).	Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.
Investigate and explain the effects of physical activity on ✓ psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.	Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.
Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.	
Q33. Name of APK student that requested the site appr	roval form from you (if applicable)

Q29. Would you like to be added to the Department's list of approved sites for future interns?

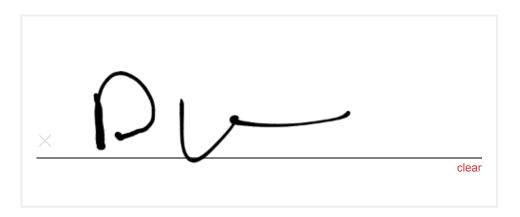

○ No

Q32. Have you reviewed the APK Internship <u>Policies and Procedures Manual</u>? Note that clicking the link will take you away from this survey and any information input into the survey will be lost if you navigate back. We recommend holding the ctrl button on your keyboard when clicking the link to open it in a new browser tab.

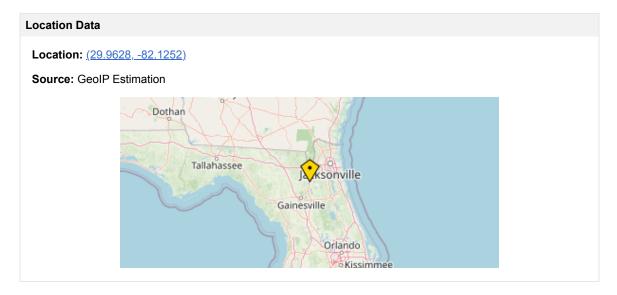

- Yes
- No
