

Q1. APPLIED PHYSIOLOGY AND KINESIOLOGY (APK) INTERNSHIP SITE APPROVAL FORM

Q2.

The **Department of Applied Physiology and Kinesiology** (APK) at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete a 12-credit internship experience in their final semester of study. The experience requires a minimum of 520 clock hours or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters, or 40-45 hours a week for 13 weeks during the Summer semester. **Graduate** students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergradaute and graduate programs is below:

APK Undergraduate Program: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agencies, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the <u>APK Internship Policies and Procedures</u> Document to gain a better understanding of the expectations of students and site supervisors during the experience.

Q5. Organization Name
Shirley Ryan Abilitylab
OC Opposition Location (a) Hookuda Addresses Of All Locations To Do Included As Dort Of This American
Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval
SRAlab Flagship Hospital 355 E Erie St, Chicago, IL 60611 SRAlab Adaptive Sports and Fitness center 541 N Fairbanks Ct. Chicago, IL 60611
Q10. URL of Website For Organization
www.sralab.org
Q7. Name of Individual Who Will Receive Applications From Students
Derek Daniels
Q8. Email Address of Individual Who Will Receive Applications From Students
ddaniels@sralab.org
Q9. Phone Number of Individual Who Will Receive Applications From Students
3122385008
Q11. Name of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations
Derek Daniels

Q12. Email Address of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

	ddaniels@sralab.org
	13. Phone number of Individual Who Will Supervise Students Directly During Internship and Complete valuations
	3122385008
Q	14. What Semester(s) Is Your Organization Available To Accept Interns? (select all that apply)
	✓ Fall (August - December)
	✓ Spring (January - April
	✓ Summer (May - August)
TI gı	15. APK Internship Policy requires that a site supervisor hold one degree higher than the student intern. his means that site supervisors of undergraduate interns must hold at least a bachelor's degree and those of raduate interns must hold at least a master's degree. Based on this policy, for which category of students is our organization willing to accept applications? Check all that apply
	✓ Undergraduate Students ✓ Graduate Students
Q	16. How many interns is your organization willing and able to support per semester?
	17. Describe the normal working hours anticipated for an intern at your organization. Please indicate selihood and circumstances surrounding any evening or weekend time commitments.
	Normal working hours vary from day to day as a lot of sports and fitness activities happen throughout the day and after typical work hours. Daily schedules are 8 hours but Monday may be 12p-8pm and Tuesday may be 10am-6pm. The Schedule depends on what program the person is assigned to. The Fitness Center opens at 6am and closes at 7pm the sports programs take place from 10am - 9pm at night various locations and days. Weeken work is typical with sports tournaments and special events.
Q	18. Does your organization offer non-paid or paid internships?
	Non-paid
	O Paid (amount)

Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)
None
Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)
None required
Q23. List required skills or previous experience necessary for interning with your organization A passion for sports and fitness Basic knowledge and skills in assisting people in staying active Must be willing to work with people of all ability levels and all backgrounds A passion to stay active and engage and assist others in developing healthy lifestyles through sports and fitness
Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)
CPR/First Aid Personal Training experience is a plus but not required SRAlab on boarding process includes HIPPA training, safety training, background check and organizational orientation
Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:
Assist in sport and fitness program development and planning Create electronic communication to market programming Assist in the delivery of sport programming, including set up and break down of sport equipment and gymnasium spaces Participation in adaptive sports opportunities to gain knowledge and understanding of biomechanics and equipment use Assist and lead once prepared fitness sessions or classes Develop educational

information and programming based on the seasonal offerings develop communication with participants and strengthen communication techniques showing how not to rely on a singular medium Track outcomes, attendance, sports statistics and equipment inventory Develop understanding of adaptive equipment and learn to modify equipment for participant ability level Gain general understanding of physical disabilities and participant functional ability

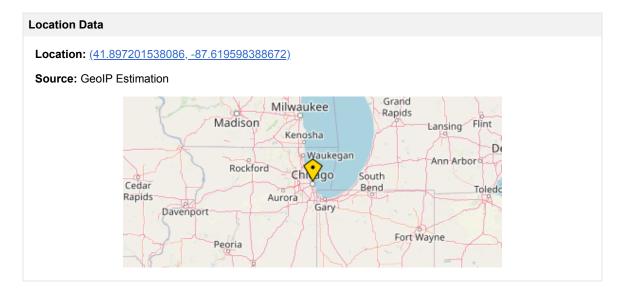

Q26. Please describe a typical day for the intern:

	or a program and then 2-4 hours of programming and an hour of clean up. Office ften changes of clothing are required throughout the day. The programming whether on. All instruction under the supervision of a full time staff member.
Q28. All Interns (undergraduate and graduate) MUST Learning Outcomes (SLO's), though evaluation of all 9 the duties/responsibilities provided to interns at your or	is preferred. Please check each SLO that applies to
Integrate principles and methods of math, social sciences, and/or ✓ arts and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments.	Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.	Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.
Identify, examine, and explain physiological mechanisms of ✓ homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).	Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.
Investigate and explain the effects of physical activity on ✓ psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.	Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.
Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity	
Q33. Name of APK student that requested the site app	proval form from you (if applicable)
Q29. Would you like to be added to the Department's li	ist of approved sites for future interns?
YesNo	
Q32. Have you reviewed the APK Internship Policies a	und Procedures Manual?
YesNo	
Q30. Signature of Individual Who Will Be Receiving Int	ternship Applications

Q31. Signature of Individual Who Will Be Supervising And Evaluating Students During The Internship

Approved: 5/21/21
