

Q1. APPLIED PHYSIOLOGY AND KINESIOLOGY (APK) INTERNSHIP SITE APPROVAL FORM

Q2.

The **Department of Applied Physiology and Kinesiology** (APK) at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete a 12-credit internship experience in their final semester of study. The experience requires a minimum of 520 clock hours or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters, or 40-45 hours a week for 13 weeks during the Summer semester. Graduate students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergradaute and graduate programs is below:

APK Undergraduate Program: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agencies, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the <u>APK Internship Policies and Procedures</u> Document to gain a better understanding of the expectations of students and site supervisors during the experience.

Smugs Fitness LLC and SportSight Training-Atlanta

Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval

Smugs Fitness Lab 1971B College Avenue Atlanta, GA 30317 Smugs Fitness and SportSight Training Atlanta 2199 College Ave Atlanta, GA 30317

Q10. URL of Website For Organization

www.smugsfitness.com www.sportsighttraining.com

Q7. Name of Individual Who Will Receive Applications From Students

Samuel J Mugavero III, Ph.D

Q8. Email Address of Individual Who Will Receive Applications From Students

sam@smugsfitness.com

Q9. Phone Number of Individual Who Will Receive Applications From Students

610-216-6467

Q11. Name of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

Samuel J Mugavero, Ph.D

Q12. Email Address of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

Q13. Phone number of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

610-216-6467

Q14. What Semester(s) Is Your Organization Available To Accept Interns? (select all that apply)

- Fall (August December)
- Spring (January April
- Summer (May August)

Q15. APK Internship Policy requires that a site supervisor hold one degree higher than the student intern. This means that site supervisors of undergraduate interns must hold at least a bachelor's degree and those of graduate interns must hold at least a master's degree. Based on this policy, for which category of students is your organization willing to accept applications? Check all that apply

✓ Undergraduate Students

🗸 Graduate Students

Q16. How many interns is your organization willing and able to support per semester?

2

Q17. Describe the normal working hours anticipated for an intern at your organization. Please indicate likelihood and circumstances surrounding any evening or weekend time commitments.

The likely hours an intern would be working are 8AM - 1:00 PM and/or 3:00 PM - 7:00 PM depending on the scope of their internship with us. We are an appointment based business and thus the schedule may vary slightly based on when there are appointments. During times between appointments, we would be working in an individual setting with the intern to help them enhance their skills and increase their knowledge.

Q18. Does your organization offer non-paid or paid internships?

🔘 Non-paid

○ Paid (amount)

Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)

Travel reimbursement if attending conferences and other industry related events, access to Health Insurance plans

Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)

All will be provided at no cost to the intern.

Q23. List required skills or previous experience necessary for interning with your organization

Knowledge of fitness training Excellent communication skills Computer skills (Google Docs/Sheets/Drive) Marketing/Social Media Knowledge Willingness to learn (required reading list) StrengthFinders Assessment (will be provided at no cost to the intern) Some business knowledge is desirable, but not required

Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)

CPR/First Aid Certified Industry recognized Training Certification (NASM, ACE, NSCA, ACSM, or other equivalent)

Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:

-Observe coaches and provide feedback to improve the training experience for customers -Train clients in 1:1 and small group setting -Learn and practice Dynamic Visual Skill Training -Become proficient in Vision Training and be able to work with clients in that space in addition to fitness -Contribute to customer relations and marketing efforts -Learn and become comfortable in leadership roles through individual projects -Learn about the fitness business and be able to understand best practices for building a business

Q26. Please describe a typical day for the intern:

The intern will arrive at the designated time. The intern will have their temperature taken, wash their hands, and be brought up to speed with the schedule each day if they are not already aware. The intern will spend 1/3 of their time observing coaches and clients, 1/3 of their time learning the business through participation, and 1/3 of their time engaging with clients/customers through training (assuming the intern is qualified to train).

Q28. All Interns (undergraduate and graduate) MUST be evaluated on **at least** 6 of the following 9 Student Learning Outcomes (SLO's), though evaluation of all 9 is preferred. Please check each SLO that applies to the duties/responsibilities provided to interns at your organization.

Integrate principles and methods of math, social sciences, and/or ranks and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments.	Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.	Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.
Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).	Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.
Investigate and explain the effects of physical activity on ysychological health as well as the perspectives used to enhance adherence to healthier lifestyles.	Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.
Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.	

Q33. Name of APK student that requested the site approval form from you (if applicable)

Q29. Would you like to be added to the Department's list of approved sites for future interns?

🔘 Yes

🔿 No

Q32. Have you reviewed the APK Internship Policies and Procedures Manual?

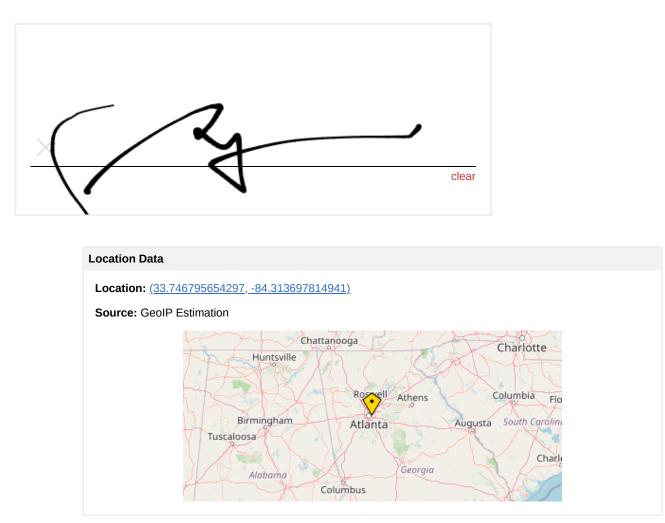

Yes

🔿 No

Q30. Signature of Individual Who Will Be Receiving Internship Applications

Q31. Signature of Individual Who Will Be Supervising And Evaluating Students During The Internship

Approved: 9/28/21

Blain Harrison
