MEETING TIME/LOCATION

**Monday, Wednesday, & Friday: Period 9 (4:05 – 4:55 PM); FLG 245
Section 1A41 is a physical presence class**

Access course syllabus, journal guidelines, and unofficial grades via Canvas on UF e-Learning (<https://elearning.ufl.edu/>) & the Canvas mobile app by Instructure

COURSE DESCRIPTION

Research Methods (RM) provide an understanding of basic concepts and techniques used in applied physiology and kinesiology. Students will demonstrate their knowledge of the course materials by analyzing, interpreting, and summarizing research, practice conducting and writing critical reviews, and by planning a research study.

PREREQUISITE KNOWLEDGE AND SKILLS

APK major with 3, 4, 6, or 7 classifications

REQUIRED AND RECOMMENDED MATERIALS

1. **Strunk, W., & White, E. B.** (2000). *The elements of style* (4th ed.). New York: Macmillan (eBook).
2. **Cauraugh, J. H.** (2020). *Research Methods: Functional Skills – Third Edition*. ISBN: 978-1-939337-34-4 (eBook).

COURSE FORMAT

Physical presence lectures encourage interactions and active learning. This process involves students answering questions, solving problems, and discussing science topics. Prepared students read the required *Research Methods eBook* and combine the information with their APK areas of interest. Expect to be asked questions Mondays and Wednesdays.

COURSE LEARNING OBJECTIVES:

1. *Identify and apply the steps involved in the scientific method*
2. *Critique research articles and determine the quality of publications*
3. *Evaluate experimental designs and choose appropriate statistics to analyze data*
4. *Visually and verbally present experimental designs, data, and findings*
5. *Formulate a research question, generate a research hypothesis, and design a study*
6. *Identify methodology issues and discuss guidelines to improve scientific rigor and reproducibility*
7. *Discuss issues related to research ethics and responsible conduct of human and animal research*
8. *Outline the processes related to manuscript reviews, writing, authorship, and journal impact*
9. *Conduct a literature search and manage references*

Course & University Policies

ATTENDANCE POLICY

Class attendance is expected, however, not required. Why should you attend lectures? To practice answering questions on specific Research Methods (RM) concepts and earn one point. Students who actively learn typically excel in RM.

PERSONAL CONDUCT POLICY

UF students are bound by ***The Honor Pledge***, which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at UF, the following pledge is either required or implied: **“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”**”

The Honor Code (<http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Further, you are obliged to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, then please consult with your professor.

EXAM MAKE-UP POLICY

A student experiencing an illness should visit the UF Student Health Care Center or their preferred healthcare provider to seek medical advice and obtain documentation. If you have an illness, family emergency or death, please contact the Dean of Students Office (www.dso.ufl.edu) and follow the DSO Care Team procedures for documentation and submission of a request for make-up assignment (<https://care.dso.ufl.edu/instructor-notifications/>). The DSO will contact the instructor. Do not provide any documentation to the instructor regarding illness or family emergency. This is your personal and protected information. The DSO is qualified to receive and verify the documents you provide. The instructor will follow the recommendations from the DSO. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalog at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.”

ACCOMMODATING STUDENTS WITH DISABILITIES

Students with disabilities who experience learning barriers may request academic accommodations. Contact the Disability Resource Center by visiting their Get Started page at <https://disability.ufl.edu/students/get-started/>. Early in the semester, share your accommodation letter and discuss access needs with your professor.

COURSE EVALUATIONS

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Grading

In previous classes, students who accurately answered questions during lectures, completed the science journal entries, and scored well on each of the three exams earned points to excel.

UF's catalog provides detailed information regarding current UF grading policies:

<https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/>. Any requests for additional extra credit or special exceptions to these grading policies may be interpreted as an honor code violation (i.e., asking for preferential treatment) and will be managed accordingly.

Format on exams: combination of multiple-choice questions, definitions, short essays, long essays, calculations, and interpreting findings.

<i>Evaluation Component</i>	<i>Points Per Component</i>	<i>Percentage of Total Grade</i>
Exam 1: January 31, Wednesday	32	32%
Exam 2: March 6, Wednesday	32	32%
Exam 3: Finals Week April 29, Monday, 3:00 – 5:00 PM	32	32%
Science Journal & Class Participation	4	4%
Total	100	100%

GRADING SCALE

After taking Exams 1 and 2, on the following class period, you will see your performance while we go over the exams in class. Given that you will only write your GatorID on the exams, the two Mondays allow you to claim your exam and sign your name. Even though exam percentages are posted on Canvas, grades are officially calculated in an Excel file on my computer. An Excel printout is always available after the exams.

Letter Grade	Total Points Required to Earn Each Letter Grade
A	≥ 91
A-	89
B+	88
B	81
B-	79
C+	78
C	71
C-	69
D+	68
D	61
D-	59
E	≤58

SUCCESS: A MOTIVATIONAL PERSPECTIVE

Your RM experiences will be meaningful given that you actively use the information in the eBook (*Research Methods: Functional Skills, 2020; Third Edition*) as well as the information presented and discussed in lectures. Enjoy this exposure to the scientific arena. The teaching style of this course is primarily reciprocal interaction with frequent, relevant questions used to practice retrieval of concepts. You must be able to use this knowledge in different situations. Our frequent research interactions will be more enjoyable if you relax and expect that I will ask you at least one question every class. In this flipped classroom, you should read the eBook chapters before class and be prepared to speak about scientific concepts while supporting your statements with logical thinking and empirical evidence. Student answers and questions are encouraged at any time during our interactions. Importantly, the information for this course is readily learned when students give sincere efforts and embrace the topics. **Be a student who attains her or his intellectual potential!**

Required Textbooks: Two e-Books

1. Strunk, W., & White, E. B. (2000). *The elements of style* (4th ed.). New York: Macmillan (eBook).
2. Cauraugh, J. H. (2020). *Research Methods: Functional Skills – Third Edition*. (eBook).

The two eBooks are at three electronic sources. Cut and paste a source into your browser.

1. **Smashwords:** <http://www.smashwords.com/books/search?query=cauraugh>
 - a. [Download a free Kindle app to your laptop computer, iPad, or iPhone.](#)
 - b. [Download a version to read on your Kindle app.](#)
 - c. [Marking and searching the text will be easy on the Kindle app.](#)
 - d. When you buy the book on Smashwords, be sure to get the iBook version. **Download the 'epub' file, then you will be able access and read in iBooks. Click epub (inside the red circle) as shown in the following screen shot.**

This eBook explores rules for conducting experiments and drawing valid conclusions. Scientific problem solving is the basis for asking questions, generating hypotheses, and understanding experimental designs and statistics. Learning about threats to internal and external validity contributes to critical thinking and writing persuasive arguments.
