COURSE OVERVIEW

SPM 4948 is a course designed to provide practical experience for majors in the Department of Sport Management. Students will maintain a part-time workload in an approved setting appropriate to their specialization. For example, athletic programs, sport commissions, sports agencies, destination management organizations, and recreation centers such as YMCA's, commercial gyms, and youth centers. As a component of the practicum, the student is expected to receive ongoing mentoring from one or more experienced industry professionals employed within a pre-screened business or organization. The practicum experience, created by the student and the practicum site leadership (and approved by SPM), should expose the student to managerial decision making, needs assessment, planning, implementation of programs and evaluation techniques utilized within the agency and/or the industry.

In addition, the practicum experience is also designed to solicit the student's professional stance and understanding on numerous topics they will encounter as a professional including but not limited to workplace behavior/harassment, cross-training, resource management, and mentorship. It is expected that the student will utilize the practicum experience to enhance their skillset and resume, as well as establish professional leads and connections in the field.

Students who excel during the practicum experience will generate advancement opportunities which may evolve into an internship or a future job opportunity. Upon conclusion of the practicum, the student should become familiar with resources necessary to research, evaluate and secure a senior internship and/or future professional opportunities. *For Sport Management students who have selected the three-practicum option, each practicum experience should serve as a progressive building block to enhance career options.*

PRACTICUM HOUR & COURSE REQUIREMENTS

Students need to submit a practicum proposal to the faculty supervisor the semester prior to the semester they will complete the practicum. It is the student's responsibility to submit the completed practicum packet by the assigned deadline. Failure to submit the completed packet will result in a delayed practicum.

Students must complete a minimum of 40 clock hours for each credit registered; up to 360 clock hours and 9 course credits during the semester. For example, 1 credit = 40 hours, 2 credits = 80 hours, 3 credits = 120 hours, etc. Students are expected to arrive at their practicum/work sites on time and be prepared for the practicum. Students should silence their cellular phones unless connectivity is requested by the site leadership.

The number of potential hours to be completed and the number of credit hours for which you will register is to be determined PRIOR to the start of the semester. Your site supervisor will need to validate your plan in advance of the practicum.

When the agency representative is interviewing the student, schedules should be compared for compatibility and a tentative schedule of responsibilities should be discussed. Remember that Holidays for the university may not coincide with the agency's days off.

The practicum schedule is created by the site supervisor according to the number of credits (40 clock hours for each credit). Students are expected to adhere to the pre-determined work schedule for the duration of the practicum experience. In the event a student chooses to work beyond the required

practicum hours, their commitment to the agency is no longer a component of the practicum experience and the student is serving in a volunteer capacity.

The Agency Sign-up Form is required for all practicum experiences and an Affiliation Agreement is necessary (only if the site has not been used prior).

Compensation: Students may receive compensation for the practicum experience (hourly or stipend).
